HAKUNA MATATA
HAKUNA MATATA CHARITY

There are children who are already alone when they come into the world. Let us help give them a future.
We founded Hakuna Matata after we were introduced to two incredible people, Fausta Pina and Don Tarcisio whose work and devotion inspired us to support their projects in Central Tanzania.

We passionately believe that by assisting and educating children in society we can break the cycle of poverty and become powerful contributors to both economic and social progress.

We aim to have a positive and sustainable impact in three key ways; by assisting and reintroducing the orphaned children back into society, by providing a solid primary school education and where necessary providing emergency assistance to those most vulnerable in the community. We aim not only to assist financially but to introduce technical partners and create joint ventures through our business contacts as well as encouraging volunteers from across the world to get involved with the project.

We hope you enjoy just a few of the photos from Hakuna Matata’s incredible journey... so far.
